

We are extremely proud to announce that we have achieved our Planet Mark certification!

PlanetMark

Planet Mark is an internationally recognised sustainability certification for every type of organisation, for real estate and for products. A Planet Mark certification recognises continuous improvement, encourages action, and builds an empowered community of like-minded individuals who make a world of difference.

In this crucial Decade of Action, we want to ensure that we are a force for good: positively transforming society and the planet by measuring our own impact on the environment.

Through Planet Mark we are protecting an area of endangered rainforest thanks to Cool Earth; a charity working alongside rainforest communities to halt deforestation. Our pledge through Cool Earth goes directly towards supporting the Asháninka community in Central Peru.

Through our commitment to Planet Mark we are also helping the Eden Project – an educational charity building connections with each other and the living world, exploring how we can work together towards a better future.

Over the next year we will be working towards reducing our carbon emissions, and we want to share this journey with our community to encourage others to join us.

The two key areas that we have highlighted to reduce our emissions is travel and our buildings.

As a result we have invested into:

- Increase in our electric vehicles in our fleet
- Trial of HVO fuel in our Manchester Depot
- Investment in LEDs and sensors across our Depots
- Carbon Offsetting- We have begun our Partnership with Ripple Africa to invest in their cookstove scheme.

Each and every one of you plays an important role in our sustainability commitments, and Planet Mark will help to embed sustainability in our business culture so that we can make continual progress.

We look forward to sharing our sustainability achievements with the wider community. We encourage you to get in touch with jack.doyle@mayflowerws.co.uk if you have any questions, suggestions or would like to get involved.
